TO WHOM IT MAY CONCERN

I am Prof. Dr. Md. Asraf Ali, from the Department of Computer Science at American International University-Bangladesh. It is my great pleasure to recommend Sudipta Kumar Das in getting admission for graduate program to your university.

As the course teacher, I had the opportunity to observe him while I taught research methodology, and Machine Learning courses throughout the semester. In that time, I watched that he has grown into an outstanding individual who excels in both his academic and personal pursuits. I found him to be a self-motivated student as well as an intellectual. What sets him apart is their keen analytical skills and their ability to solve complex problems with innovative solutions. He possesses a deep understanding of intelligent systems, coupled with a natural aptitude for programming and software development. His enthusiasm for learning is contagious, and he has a remarkable ability to grasp new concepts quickly and apply them effectively in practical scenarios. Moreover, he is an excellent team player and communicator. He actively engages in group discussions, contribute valuable insights, and collaborate seamlessly with his peers. His leadership qualities shine through in group projects, where he often takes the initiative to organize tasks and ensure project milestones are met efficiently. Outside of academia, he has also demonstrated a strong commitment to personal and professional growth. He has participated in various extracurricular activities, workshops, and hackathons, further enhancing his skills, and expanding knowledge in relevant areas.

In conclusion, his combination of academic excellence, technical proficiency, and interpersonal skills makes him an asset to any organization or academic program. I have no doubt that he possesses the qualities and capabilities to excel in any endeavor he pursues. Therefore, I strongly recommend his application to your renowned university in getting admission. Please, feel free to contact me if you have any questions on his characteristics or past academic issues.

Sincerely,

Prof. Dr. Md. Asraf Ali
