To Whom it May Concern

It is my great pleasure to recommend Mr. Sudipta Kumar Das to your university. He was in my Advanced Programming with .NET course where I noticed an inherent yearning to accumulate knowledge in him. He is the epitome of fineness in communication in his class. He grasps the gist of the topic very quickly and tackles the problem in a very systematic way.

He has been a serious understudy who has been helpful to other people and has intrigued me with his consistency and devotion. He astonishes me through understanding the fundamental ideas and outstanding clarity of thoughts. His innate passion for excelling at any assignment attempted has brought about good standing in his group many semesters.

He has continuously put forth the grievances of the pupils to the relevant authorities and has made a noteworthy difference in improving the facilities for day scholars.

He is a talented coder and has assisted his group mates for successful completion of their projects. He is helpful, confident, enthusiastic, and kind.

I am sure that his future is bright, and he is meant for great things. For any concern you may contact via email.

With Best regards,

Tanvir Ahmed
